2.	_____	_____	_____	_____
3.	_____	_____	_____	_____
4.	_____	_____	_____	_____
5.	_____	_____	_____	_____

¹ Leave blank if for academic year.

Information for Scholarship Award Form

YOU MUST HAVE SAFARI ACCESS!

Commands for student information on SAFARI

SRCH This is the search by name screen. Use this if you do not know the student's ID#. You must have legal name, not nickname. This will give you ID# and an address. This usually is the student's permanent address. I do not use this for address information. I use the NAME screen.

NAME Student's full name, local and permanent address and phone number. Be sure you give the most current address. Date of information is noted to the left of the address.

STUD This will give you the student's college, major, admit term and admit status. (NF is new freshman; NT new transfer.)

SGPA This gives you cumulative and term grade point average by term date: i.e., 1996 3 is fall, 1997 1 is spring, and 1997 2 is summer. It also gives you the hour earned. Total number of hours gives you classification.

0 - 29	Freshman	30 - 59	Sophomore
60 - 89	Junior	90 up	Senior

If this screen shows fewer hours attempted than earned, the student has probably transferred in hours.

STIM This gives you the student's upcoming term schedule to verify number of hours enrolled. Most scholarships require at least 12 hours (full time). E-mail address is also on this screen.

PACK This is the financial aid package information. It will list other scholarships, grants and loans the student has been awarded. This last number on the upper right, line labeled "FM," shows remaining need. (This is a "guesstimated" calculation by the university.) If the remaining need is less than the scholarship and the student has been awarded work-study or loans, the scholarship could be reduced by these amounts. You might want to call financial aid to check.

If you have any questions, call the Dean's office at 5-2252.
