Occasionally the duties of a position change and you may want the position reviewed to determine whether the correct title is being used. Additionally, in the case of non-faculty, non-classified support positions, responsibility changes may justify salary adjustments. Effective immediately, reviews of positions/salaries for all such purposes will be performed on a biannual basis. A request for a position/salary review should be submitted to the AES or CES Human Resources Office on the attached form no later than March 15 or September 15, to be effective May 1 and November 1, respectively.
